

# ABSTRACT

**Title of Project:**

**EDUSYS**

## **DESCRIPTION :**

EDUSYS is a systematic assistant for your learning  
It's an educational website where you can walk about in a virtual world of hand book full of resources.  
Usually we spend a great deal of time reviewing the resources of libraries and educational websites.  
For this EDUSYS provide services offered which are so immense that research has become much easier task than it was in the past.  
We provide your accesories, projects, assignment, previos question papers with answers keys. This will be based on regular topics and it will be key factor among students. There are mid day schoolers among every campus, whatever we miss the classes or notes , EDUSYS provide assistance for keeping consistenace among them to make up their record works and assignments in time.

## **Existing system:**

Third party application and  
Websites  
Chatbots

Are available but Inaccuracy of search results: While their algorithms are sophisticated, they are not perfect, and the search results can be influenced by many factors, including paid advertising, which can make it difficult to find the most accurate or unbiased information.

Ad overload: business model is largely based on advertising, and as a result, search results can be overwhelmed by sponsored content, making it harder to find organic results

## **Advantage of EDUSYS:**

NO ADS  
NO PAID PROMOTION  
ABSOLUTELY FREE ACCES AND LOGIN  
USER FRIENDLY INTERFACE  
MUCH LESS COMPLEX FOR USING AND MINIMUM TIME MAXIMUM RESOURCE

## **REQUIREMENTS:**

Laptop  
With windows /Ubuntu Linux  
Printer, scanner  
Hardware: Pentium/i3,i5/amd processor with  
Minimum 4GB RAM, & 256GB SSD/HDD

## **Project members**

**SOORAJ . R**  
**VAIDEESH . S**  
**VISHNU . K . P**  
**VISHNU HARI**  
**VIMAL . P**
